Educational Mural Illustrations package is a unique product offered by Atalinas for schools and educational facilities, but not limited to. Specifically created to provide an educational experience for students and is a one-of-a-kind process offered nowhere else. This creation is a "sole source" product by its creation, consultation and ownership. Should a school elect to employ me to design and paint this concept the school recognizes it as a one-of-a-kind sole source package offered exclusively by Natalie Love Adams (210-313-8018) [www.atalinas.com](http://www.atalinas.com).
