Instructional murals are a unique product offered by Atalinas for schools and educational facilities. It is a Package specifically created to provide an educational experience for students and is a one-of-a-kind process offered nowhere else. This creation is a "sole source" product by its creation and ownership.

Should a school elect to employ me to design and paint this concept the school recognizes it as a one-of-a-kind sole source package offered exclusively by Natalie Love Adams (210-313-8018) www.atalinas.com.
